

ByBenche

Nature & Travel Videographer

I'm a content creator based in Bornholm, Denmark, capturing the wild beauty, unique places, and moments that make nature feel alive. Through cinematic photography and video, I create content that encourages people to slow down, explore, and appreciate the world around them.
While Bornholm is my home base, I regularly explore the Nordic region, documenting authentic landscapes and outdoor experiences through unique visual storytelling.

I've been creating and sharing content consistently since 2020, posting 5-7 times a week. My audience follows me for authentic nature experiences, making my content a great fit for brands in travel, outdoor gear, photography, and lifestyle.
